

PE at Calverley Parkside Planned Expenditure 2021 - 2022

At Calverley Parkside we want to inspire all children to follow a healthy and active lifestyle as well as engaging in physical activity and sport, becoming physically literate and developing lifelong participation. An active lifestyle helps support a child's physical development, movement skills and body confidence, whilst also contributing to their physical, mental and emotional health and well-being. We aim to promote the enjoyment of PE for all children whatever their level of ability. The government provides funding to improve the provision of physical education (PE) and sport in primary schools. This funding is ring-fenced and therefore can only be spent on the provision of PE and sport in schools.

Our total grant for 2020 / 2021 will be approximately £17,750

How will we invest this at Calverley Parkside Primary School?

At Calverley Parkside, we have developed a provision plan to ensure this funding is invested to maximise the long term impact of our PE provision for pupils and staff. The funding is invested in various ways and the impact of these initiatives is closely monitored through assessment of children's skills, staff and pupil feedback, uptake of clubs etc.
