

One of the main reasons I like Calverley Parkside Primary school, is because, not just me, but every single person here gets me! I always have someone - (teachers/students) - who can help me out if I struggle at things with school or some thing at home is going on. Everything at this school is fair and everyone gets a chance to have their say. At Calverley Parkside Primary school, we also have fun sports events/tournaments, and we also have fun activities which is where we celebrate special days/weeks and people come in to tell us/teach us all sorts of fun, fascinating, interesting things

Online Safety:

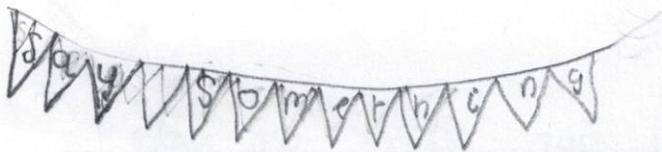

At Parkside, we have a lot of computing lessons due to online safety. Teachers / staff members help us understand the safety in going on devices & apps, we have a much more knowledge on online safety and no what or what not to do Online:

General

Times

On

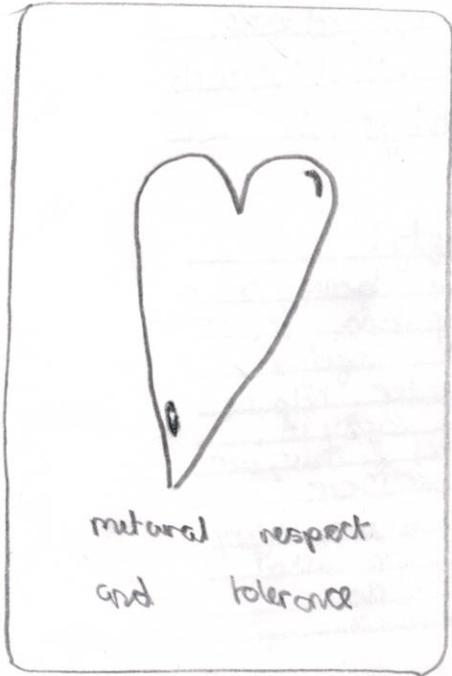

Purpose

At our school, we have great behavioural policies! And we're all grounds together, and all have each others backs.

Because we are all, a - GREAT team!

Sometimes people struggle with things, either, they have a disability or they just get a bit stuck and that's why our schools are great, because we have amazing teachers to help us. And from what I've learned here, at this school, they stay the limit.

Here, it doesn't matter who we are, our gender, where we're from, our skin colour, our religion, but we're all treated the same. And we all treat each and every student and staff with the exact same amount of kindness and respect.

DEMOCRACY

At our school, we vote. We vote for school council and for head boy/head girl! This way, everyone in the school gets a say!
